Education

Birla Institute of Technology and Science, Pilani – Goa Campus Goa, India
B.E. Computer Science (2024–2028) CGPA: 8.68/10 — JEE Advanced AIR 3760

Projects

Glitchhoppers(2D Platformer Game)

- Developed a 2D Unity platformer featuring dual-world switching and 10+ puzzle-driven levels.
- Implemented modular enemy AI, boss phases, and hitbox-based combat systems.

Robust Vision Pipeline for Noisy Labels & Distribution Shift

- Built a computer vision pipeline for noisy-label learning and distribution shift adaptation.
- Implemented noise-robust training, label-shift correction, and test-time adaptation techniques.

Smart Finance Planner(ongoing)

- Developed a finance app for credit card management, expense tracking, and spending analytics.
- Built a recommendation engine to identify the best card based on rewards and cashback.

Hospital Management System

- Developed backend services for patient records, appointments, and doctor management.
- Implemented REST APIs and database schemas for healthcare workflows.

Technical Skills

- **Languages:** C++, Python, Java, C, SQL, C#, Verilog
- **Technologies:** Flutter, Spring Boot, Unity, React.js, Node.js, Express.js, Git, Docker, Linux

Experience

FlairX Networks, Bangalore – Software Engineering Intern May 2026 – Jul 2026

- Developing full-stack applications using Flutter, Spring Boot, and PostgreSQL, contributing to finance and enterprise software solutions.

Undergraduate Research Assistant Nov 2025 – Present

- Assisting Prof. Kunal Kurgaonkar on research exploring LLM-assisted generation of multi-module RTL hardware designs.

Cybersecurity Club (BITSkrieg) – Core Member Aug 2024 – Present

- Contributed to a world-ranked #3 CTF team, authoring reverse engineering challenges and solving game reverse engineering and cryptography challenges across multiple CTF competitions.

Developers' Society, BITS Goa – Core Member (Game Dev Vertical) Aug 2024 – Present

- Built 10+ games in Unity and participated in 2 game jams, developing gameplay systems, AI, and modular game architectures.

Social Experience

Nullcon Goa 2026 – Volunteer (Con-troller) Feb 2026

- Managed workshop coordination and guest operations for Asia's largest cybersecurity conference.

Peer Mentorship Program (PMP) – Mentor Aug 2025 – Present

- Mentored 5 junior students through the institute's peer mentoring program.
